*the simpler, the better*

### **Mission:**

Explore life information and enhance life value

### **Vision:**

To be the leader of ecological chain integration in the field of life and health

### **Core Values:**

#### **D-Heart Gravity**

Customer orientation, Altruism and win-win

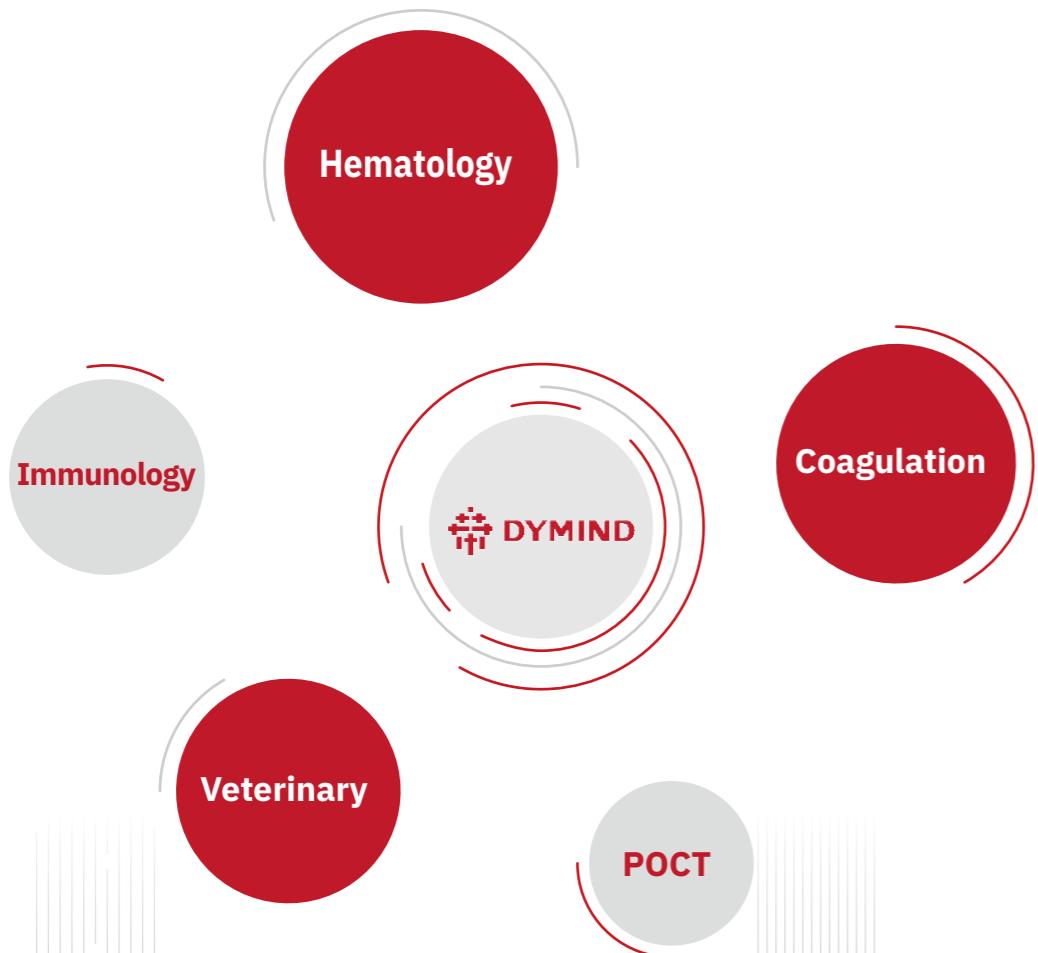

Innovation and inclusion, Growth and evolution, Value contribution

Integrity and trustworthiness, Struggle and responsibility, Truth-seeking and practicality

# COMPANY PROFILE

Located in Shenzhen, China, Dymind Biotechnology Co., Ltd. is an international high-tech enterprise specialized in the R&D, manufacture, sales and service of medical devices and reagents in the field of IVD.

Since founded in 2013, Dymind has adhered to continuous innovation and customer orientation, which lead to a course of steady and sustainable growth. In the competition with domestic brands, we hold an increasing market share which ranks second in the hematology market. Nowadays, Dymind's products and services have been spread to over 140 countries and regions. With high-standard and comprehensive joint detection solutions covering the fields of hematology, POCT, veterinary, coagulation and immunology, Dymind always takes responsibility of healthcare for all with innovative medical technologies.

140+

Countries and Regions

15

Overseas Sites

Overseas sites include Bangladesh, Brazil, Colombia, Egypt, Indonesia, Mexico, Pakistan, Peru, Philippines, Russia, Saudi Arabia, Thailand, Italy, USA...

# COMPREHENSIVE STRENGTH

## 1 Exceptional R&D Strength

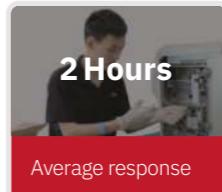

## 2 Professional Customer Care

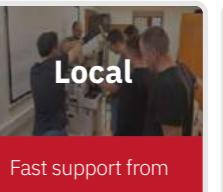

### Dymind Customer Service

- Cherish every moment with customers
- Provide customer service beyond expectations
- Create new value for customers

**2 Hours**

Average response time, no more than 24 hours

**Local**

Fast support from local engineering teams

**Long**

Warranty period for main unit

## 3 Authoritative Certifications

The third company to pass the national CNAS blood cell reference measurement laboratory certification

Province Blood Testing Medical Engineering Technology Research Center

Shenzhen Automatic Coagulation and Fibrinolysis Functional Analysis Technology Engineering Research Center

Guangdong Industrial Design Center

ISO  
13485:2016

ISO  
9001:2015

GMP  
MANUFACTURE OF MEDICAL DEVICES

TÜV  
Rheinland

SGS

CE

RoHS  
COMPLIANT

UDI

IVDR

# MILESTONES

## 2013-2014

- Dymind was founded
- Obtained CE and ISO13485 certificate
- The first self-developed hematology analyzer came to prominence

## 2015-2016

- Dymind International Sales & Marketing Center was established
- Launched China's first 5-Part+CRP hematology analyzer
- The National High-tech Enterprise

## 2017-2018

- Top 2 hematology brand in China
- The global pioneer of joint detection analyzers
- Major breakthrough in the international market
- Sequoia Capital China and government funding support

## 2019-2020

- Products and services are extended to 120+ countries and regions, implementing global localization strategy
- Tapped into coagulation, immunology, high-end automation lines, POCT, and veterinary market.
- Shenzhen Automatic Coagulation and Fibrinolysis Analysis Technology Engineering Research Center

## 2021-2022

- Selected to be "Little Giant" Firm by Ministry of Industry and Information Technology, China
- Shenzhen Dymind Animal Medical Technology Co.Ltd was founded
- Dymind subsidiary in Indonesia was founded
- Granted Red Dot and iF Design Award
- Dymind Suzhou R&D Center construction work was completed

## 2023-2024

- Launched multiplex quantitative solution of allergen specific IgE, Mf1280
- Granted China Patent Excellence Award
- Honored as National Intellectual Property Leading Enterprise in 2023
- Joined forces with China Unicom to explore Smart Healthcare
- Honored as National Annual Ranking of Investment Value for Innovative Healthcare

# PRODUCT PORTFOLIO

## Hematology

### 6-Part Differential

### 5-Part Differential

### 3-Part Differential

### 3+5-Part Differential

## Reagent

Hematology Reagent

## DH-6000/DH-8000

### Automatic Hematology Analysis Line

- Three-track transmission system for high detection efficiency
- Up to 240 samples can be loaded on each sample loading module
- Flexible combinations to meet the actual needs of different labs
- Automatic sample identification with 360° rotating barcode scanning module

## DH-800/DH-800CS

Auto Hematology Analyzer with  
RET, NRBC, Body Fluid

- More powerful detection ability for abnormal WBC
- Intelligent warm bath technology for RBC
- New hydrodynamic focusing impedance method for RBC/PLT
- Various and flexible sampling mode
- Up to 110T/H with comprehensive parameters

## DH-615

Automatic Hematology Analyzer with RET

Fluorescence method & laser scattering technology

Customized automatic re-exam function

Intelligent AI analysis for abnormal samples

Efficient auto-sampling for capillary blood

## DH-80 series

Auto Hematology Analyzer with  
ESR, NRBC, RET, HbA1c, Body Fluid

- ◎ Optical PLT-S without dye achieves higher accuracy
- ◎ RBC V/HC scattergram for distinction of anemia
- RET and NRBC Dye Saving solution
- 178 reportable parameters+23 graphics
- ◎ Up to 100T/h

DH-88 CS

CRP SAA

DH-88CS[H]

CRP SAA HbA1c

## DM79X

**5-Part Hematology+CRP+SAA**  
**Joint Detection Analyzer**

- ⌚ Up to 90T/H
- �� Only 20µL sample volume
- ⌚ 34 parameters+4 scatter grams+3 histograms
- #+#+ 8 testing modes automatically switched by barcode scanning
- ⌚ Joint detection for infection identification

## D7-CRP

### 5-Part+CRP Tests Combined with Autoloader

- ◎ Up to 90T/H
- ☒ 33 comprehensive clinical parameters
- ☒ Provide intuitive 3D scattergram
- ⌚ Advanced latex-enhanced nephelometry for CRP

## DH76

### 5-Part Auto Hematology Analyzer

- ◎ Up to 90T/H
- ☒ Powerful autoloading function with STAT position
- ⌚ Provide intuitive 3D scattergram
- ☒ Wide linearity and great precision

## DF50CRP

### 5-Part+CRP Tests Combined within One Machine

- ⌚ Up to 60T/H
- 🖱️ 27 reportable parameters+3 histograms
- ↹ 12.5° leaning angle of the screen for easy operation
- 🕒 Latex-enhanced nephelometry for CRP test

## DF55

### Mini 5-Part Hematology Analyzer

- ⌚ Up to 60T/H
- ↹ Only 20ul sample volumerequired
- 🕒 31 comprehensive clinical parameters
- ⚙️ Dedicated channel for BASO detection

## DH20/DH22

Automatic Hematology Analyzer

- Compact and user-friendly
- More clinical parameters
- Only 9µL sample volume
- Optional RF card and barcode function

## DH36X

### 3-Part Auto Hematology Analyzer

- ⌚ Up to 60T/H
- ⌚ Only 20 $\mu$ L sample volume
- ✚ 22 parameters+3 histograms
- ☒ Latex-enhanced nephelometry for CRP test

## DH36

### 3-Part Auto Hematology Analyzer

- ☒ Up to 60T/H
- ⌚ Only 9 $\mu$ L sample volume
- ⌚ 21 parameters+3 histograms
- ☒ Intuitive design with 10.4 inches touch screen

## DH26

### 3-Part Auto Hematology Analyzer

- ⌚ Up to 55T/H
- 👉 Only 9µL sample volume
- ⌚ 21 parameters+3 histograms
- ⌚ Lightweight appearance with 10.4 inches TFT touch screen
- ⌚ WIFI function for LIS communication

## UN73

### 3-Part & 5-Part Combined Auto Hematology Analyzer

- ⌚ The world's first auto hematology analyzer combined with 3-Part & 5-Part
- 👉 3-Part up to 90T/H and 5-Part up to 80T/H
- ⌚ Sample aspiration: 9µL for 3-Part, 20µL for 5-Part
- ⌚ Flexible switch between various modes

## CA1200

### Automatic Coagulation Analyzer

- Optics & mechanism technologies integrated for reliable results
- Single-test cartridge for cost saving and high efficiency
- Adjustable touchscreen and built-in thermal printer for maximum convenience
- Intelligent design for workflow optimization

## MF1280

**Automated Flow Fluorescence  
Immunoassay Analyzer**

- ◎ Multiplexed, quantitative and efficient
- ◎ Magnetic microbeads based flow-cytometric immunoassay, with high sensitivity and wide linearity
- ◎ Up to 8 quantitative results reported, by 10 µL sample and 1 serving of reagent/consumable
- ◎ Ideal solution for multiplexed tests including allergy, autoimmunity, tumor marker, cytokine etc.

## DP-H20

Integrated Solution for Hematology + Immunoassay

Single-use reagent kit for hematology and immunoassay module with 33 parameters

More assays, original hematology technology

Only 10  $\mu$ L sample volume6 minutes to get results, easy to use

No need for cold chain

## DP-H10

### Automatic Hematology Analyzer, POCT

- ▢ Single-use reagent kit for CBC+CRP+SAA with 23 parameters
- ◎ Portable device to run in communities and rural solution
- ✚ Advanced impedance method and latex-enhanced nephelometry method
- ⚙ Maintenance free and no carryover
- ▣ Automatic correction technology with HCT

## DP-C16

### Semi-Automatic Biochemistry & Coagulation Analyzer

- ◎ Coagulation test parameters: PT, APTT, TT, FIB, D-Dimer
- ⚙ Abundant optical system: 8 wavelengths available, 340nm~660nm
- ▣ Single-wavelength and dual-wavelength detection modes
- ▢ 7 inches color touch screen, easy to operate
- ✚ Open system for user expanding: general chemistry panel, renal & liver myocardial enzymes, diabetes monitor, blood lipid examination

## DX-C30 Vet

Auto Chemistry Analyzer for Vet

- ☒ Advanced Microfluidic Technology Applied in single-use rotor reagent
- ◎ 3 steps to get results, no need to add diluent
- ◎ Supports 17 animal species test
- ☒ Portable and space saving

## DX-G20 Vet

Blood Gas Analyzer for Vet

- 🕒 Less than 60s per test, small footprint with simple intuitive operation
- 🕒 Single usage test card enables 10 testing parameters+24 calculating parameters, including blood gas, electrolytes and metabolites
- 🕒 Utilizes dry chemical sensors to reduce consumable waste
- 🕒 Supports Ethernet, Wi-Fi, and LIS integration for seamless data transmission

## D-wise

### Automatic Veterinary AI Morphology Analyzer

- Powerful AI technology supports fecal parasite and urine sediment test
- Less than 14min per sample, high automation throughout whole process to simplify operation
- High-resolution microscopic analysis improves the accuracy of diagnosis
- Deep learning, modular upgrade and algorithm optimization supported

## UN73 Vet

### 3-Part & 5-Part Auto Hematology Analyzer for Vet

- ⌚ Flexible choices for examination of 3-Part & 5-Part
- 📠 Made for farms and pastures, pet hospitals with autoloader sampling
- 👉 Advanced laser scattering technology & flow cytometry for WBC differentiation

## DP-H10 Vet

### Automatic Hematology Analyzer for Vet, POCT

- 🕒 Single-use reagent kit for CBC+CRP+SAA with 23 parameters
- 📍 Portable device to run in communities as pet's solution
- ✚ Advanced impedance method and latex-enhanced nephelometry method
- ⌚ Free maintenance and no carryover
- 🕒 Automatic correction technology for HCT

## DM61 Vet

### 5-Part & RET Auto Hematology Analyzer for Vet

- ⌚ Up to 60T/H, auto testing eliminates low efficiency and counting errors of manual microscopy
- ✚ 25 parameters+5 scatter grams (2 dedicated for Baso and RET)+3 histograms
- ⌚ Multiple species supported, totally up to 20 customized animals
- ☒ Simple switch between 3 different testing modes for different usage scenarios
- ◎ Intelligent flag info. and humanized software management for maximum convenience

## DF66X Vet/DF63X Vet

### Integrated Automatic Hematology Analyzer with CRP/SAA for Vet

- ◎ Up to 60T/H
- ✚ 24 parameters+3 histograms+4 scattergrams
- ☒ Up to 18 customized animal detection modes
- ⌚ Built-in thermal printer and external printer supported

## DF56 Vet

### 5-Part Auto Hematology Analyzer for Vet

- Up to 60T/H
- 23 parameters+4 scatter grams+3 histograms
- 6 reportable species and 11 research species supported
- Only two lyses and one diluent for routine test, saving cost per test

## DH36 Vet

### 3-Part Auto Hematology Analyzer for Vet

- Up to 35T/H
- 23 parameters+3 histograms
- Built-in thermal printer and external printer supported

## CBC Reagent, QC and Calibrator

- Stable quality with strong anti-interference capability
- Cyanide-free and eco-friendly features to avoid damage to users and environment
- Complete supporting traceability system to guarantee accurate test results

## SAA, CPR Reagent, QC and Calibrator

- High sensitivity, wide linearity
- In combination with Dymind analyzers to guarantee accurate test results

## PT/APTT/FIB/TT/DD/FDP/AT-III Reagent

- High Compatibility**  
For both optical and magnetic clotting methods
- Valid Results**  
Good clinical correlations with major players
- Flexible packing options**  
Friendly to low sample size scenario

## Allergen-Specific IgE Antibody Assay Kit

### All Quantitative Results

High sensitivity, wide linear range

### Multiplexed Testing

One test run of the assay kit generates up to 6 sIgE results

### Valid Results

Strong correlation with the "gold standard" system

### Low Total Cost Consumable

Cost per result  $\approx$  1/6 cost per CLIA test

Test Kit	Test Item
Inhalation group 1	d1 (house dust mite), d2(American house dust mite), e1 (cat dander), e5(dog dander), i6(cockroach), w1 (common ragweed)
Inhalation group 2	W6(mugwort), m3(aspergillus fumigatus), m6(alternaria alternata), t3 (common silver birch), t11 (maple leaf sycamore), t12(willow)
Food group 1	f1(egg white),f2(cow's milk),f3(cod),f23(crab),f24(shrimp),f27(beef)
Food group 2	f4(wheat),f10(sesame seed),f13(peanut),f14(soybean),f88(mutton)
Total IgE	tIgE

## POCT CBC+CRP/SAA Reagent

### Advanced Technology

Impedance methodology for full 3-part hematology parameters

Immunonephelometric method to test CRP+SAA

### Single-use Package Reagent

Plug-and-play, no expiration and waste

Maintenance free, no reagent usage when switch on/off
